School of Computing and Information Technologies

A Database design for StarCity

In Partial Fulfillment of the Requirements
for the Course in Database Management 1
(DATAMA1)

By

Bermudo, Jesus

Cisnero, Rowin Steven

Eler, Daniel B.

September 2019

Introduction

Company Profile

Star City is controlled by people in the industry of amusement and professional with sufficient expertise for the park be operated. Furthermore, the technology within the park undergo serious checking by professionals and certified consultants. Foreign consultants visited and did some proceedings, shared their expertise in this field: amusements and attractions.

Over time, the star city is now one of the attractions that is featured in Phillippine center for international trade and exhibitions. It started as kiddie attraction in toys gifts fair until it go on a separate direction to expand in 1991.

Business Transactions

Star City is a pioneer of introducing the concept of combining retail and amusement that was adopted by most of the malls that with the same concept: attractions and marketing. Their targets are the Filipino families, schools, and companies. They also have theater shows of foreign performing artists in their Star Theater. They offer a lot of rides for any age such as Grand Carousel which accommodates up to 72 riders. Adults can ride Viking, Surf Dance, Jungle Splash and more. They also let their customers experience real snow with their Snow World. They

also provide advanced technologies with their 4D attraction with their lazer blaster and 4D MaxRider.

Objectives of the Study

General Objectives

- To study the company's business transactions
- To propose solutions for the company to have easy management on their data

Specific Objectives

- To provide create two-way business rules according to the business transactions
- To create an Entity Relationship Diagram using Crow's Foot Model
- To create an Extended Entity Relationship Diagram
- To create a Relational Diagram

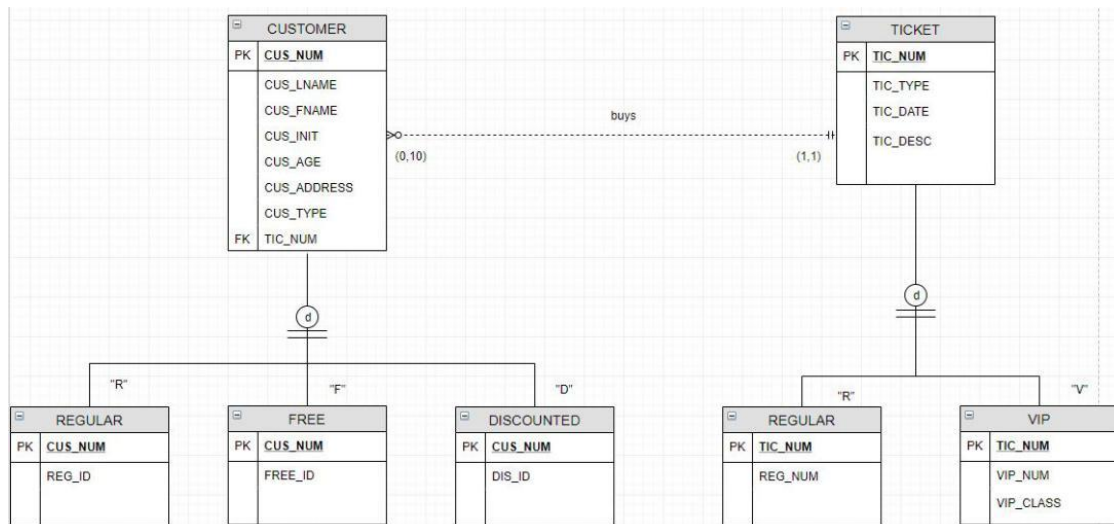

Scope and Limitation of the Study

The researchers should only study the company Star Parks Corporation or most commonly known as Star City located in CCP Complex, Sotto Corner Jalandoni Street, 1300 Roxas Blvd, Pasay. It will focus on company business transaction, employees and customers. The researchers should only use the data gathered in making a database system to be proposed for the said company.

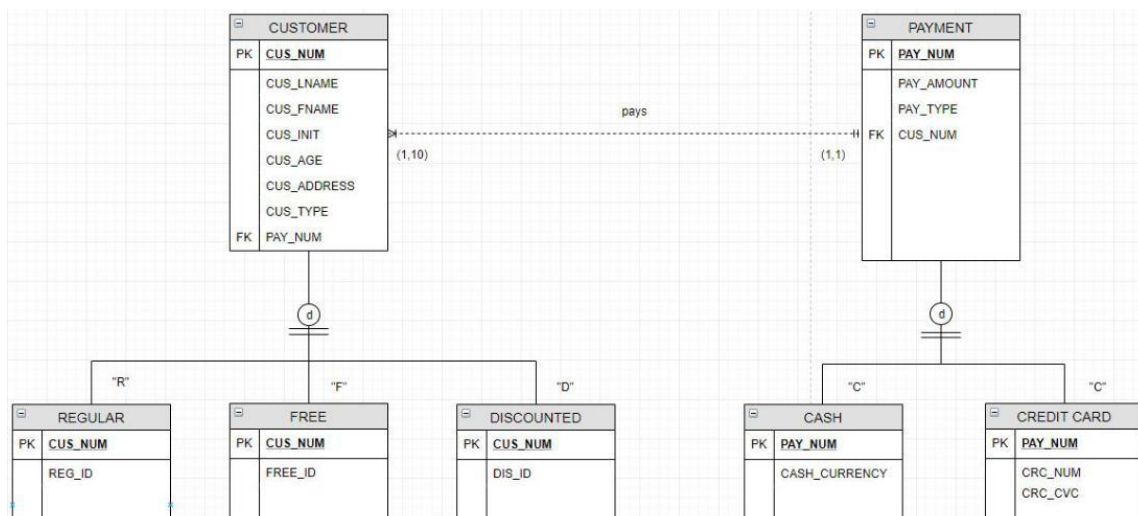

CHAPTER 2

Business Rules

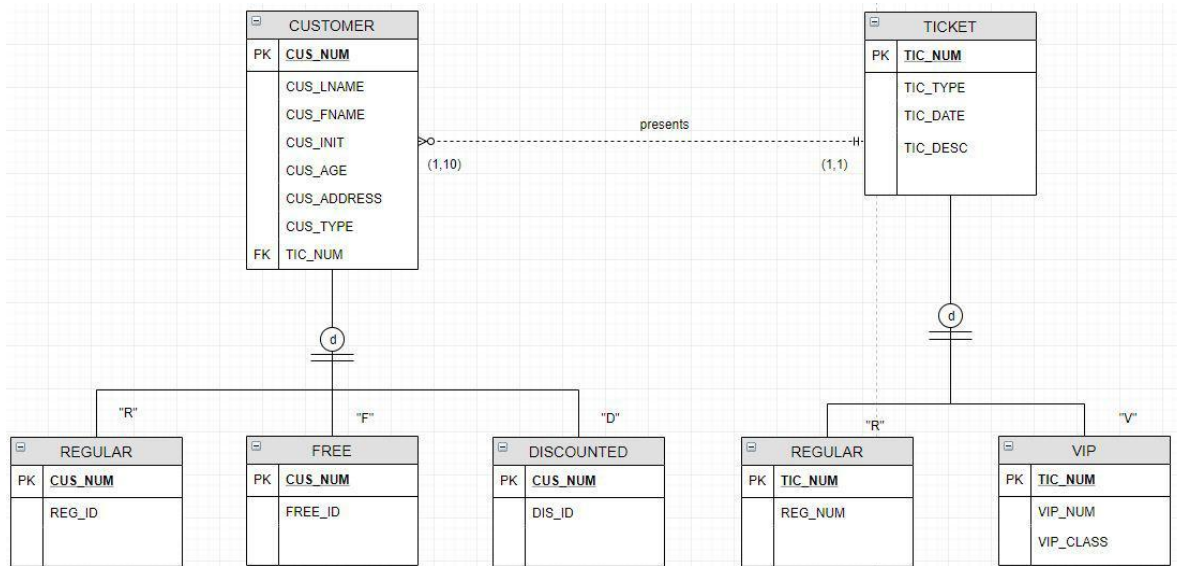

1. Zero or many CUSTOMER buys one TICKET; One TICKET is bought by zero or many CUSTOMER.

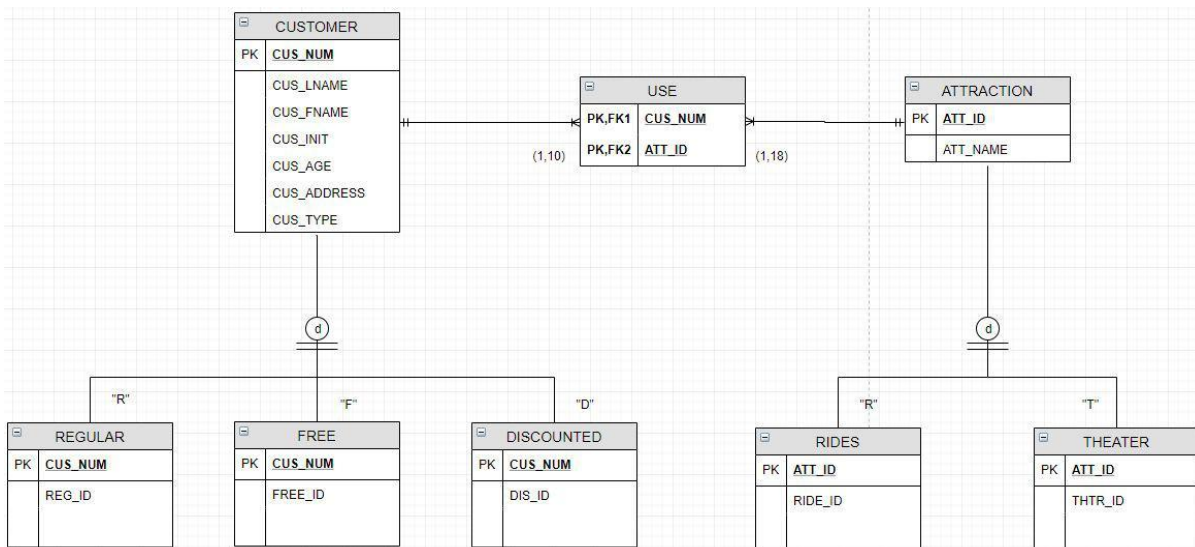

2. One or many CUSTOMER pays one PAYMENT. A PAYMENT is paid by zero or many CUSTOMER.

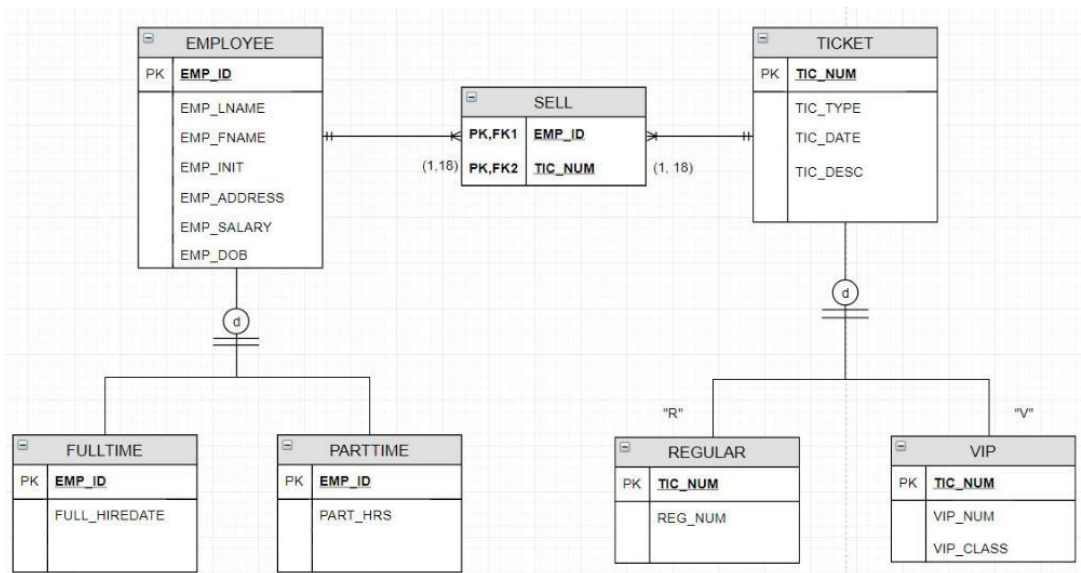

3. One or many CUSTOMER presents a TICKET; A TICKET is presented by one or many CUSTOMER

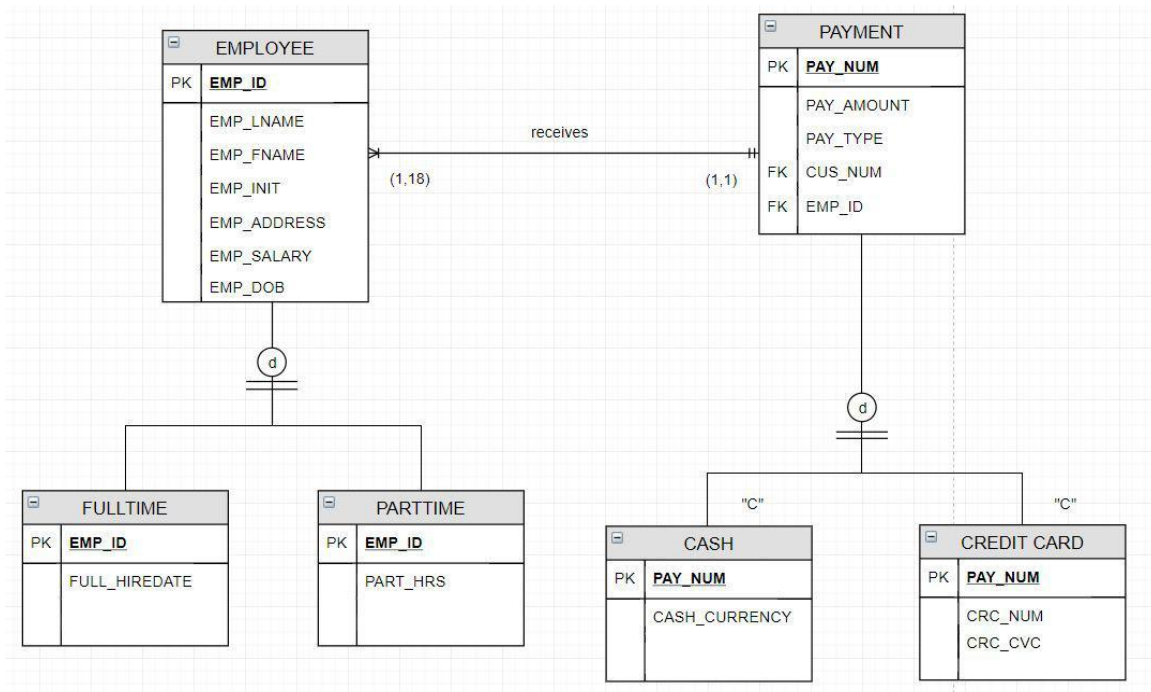

4. One or many CUSTOMER use one or many ATTRACTION; one or many ATTRACTION are used by one or many CUSTOMER.

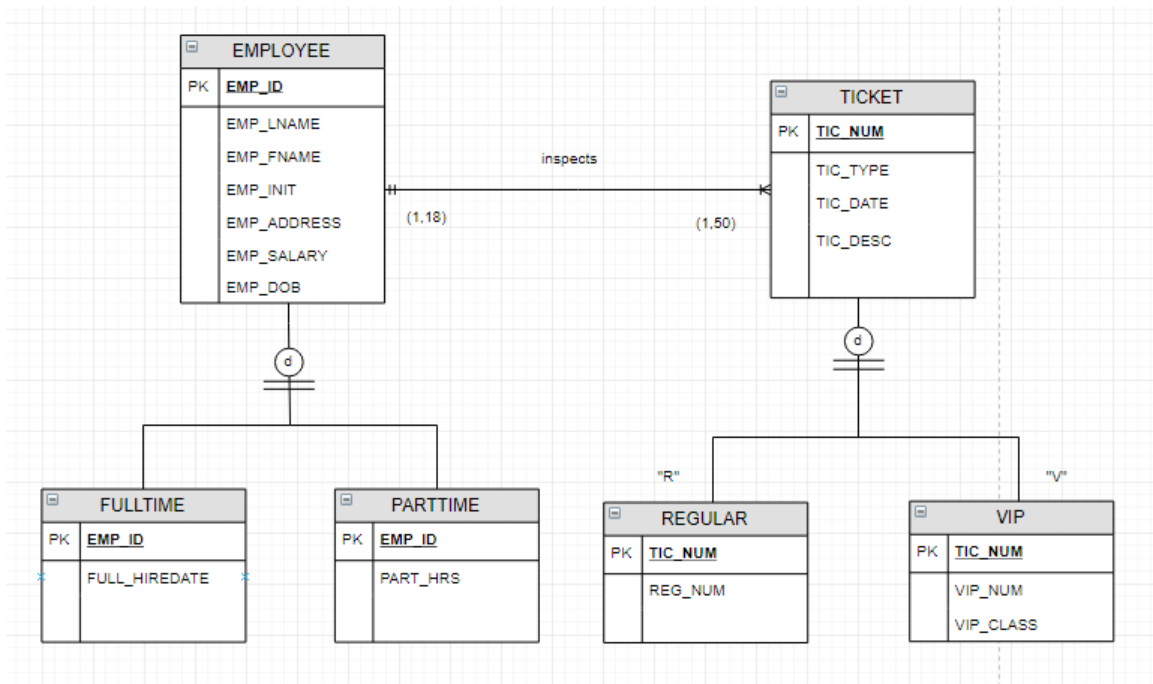

5. One or Many EMPLOYEE sells one or many TICKET, one or many TICKET sold by one or many EMPLOYEE.

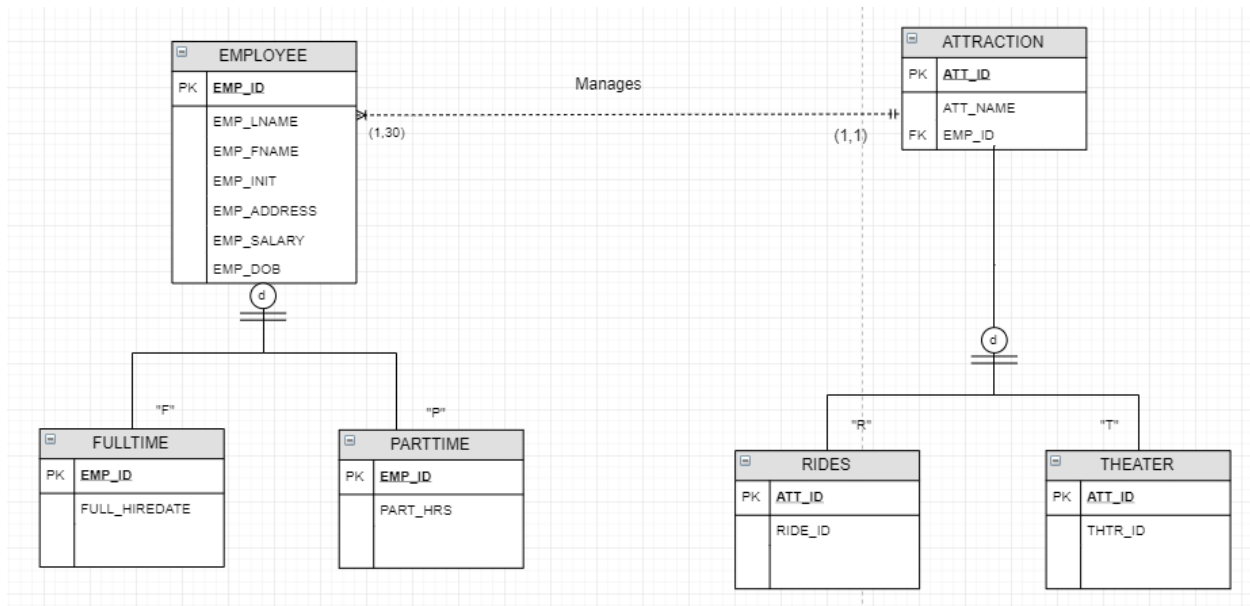

6. One or many EMPLOYEE receives one PAYMENT; One PAYMENT are received by one or many EMPLOYEE.

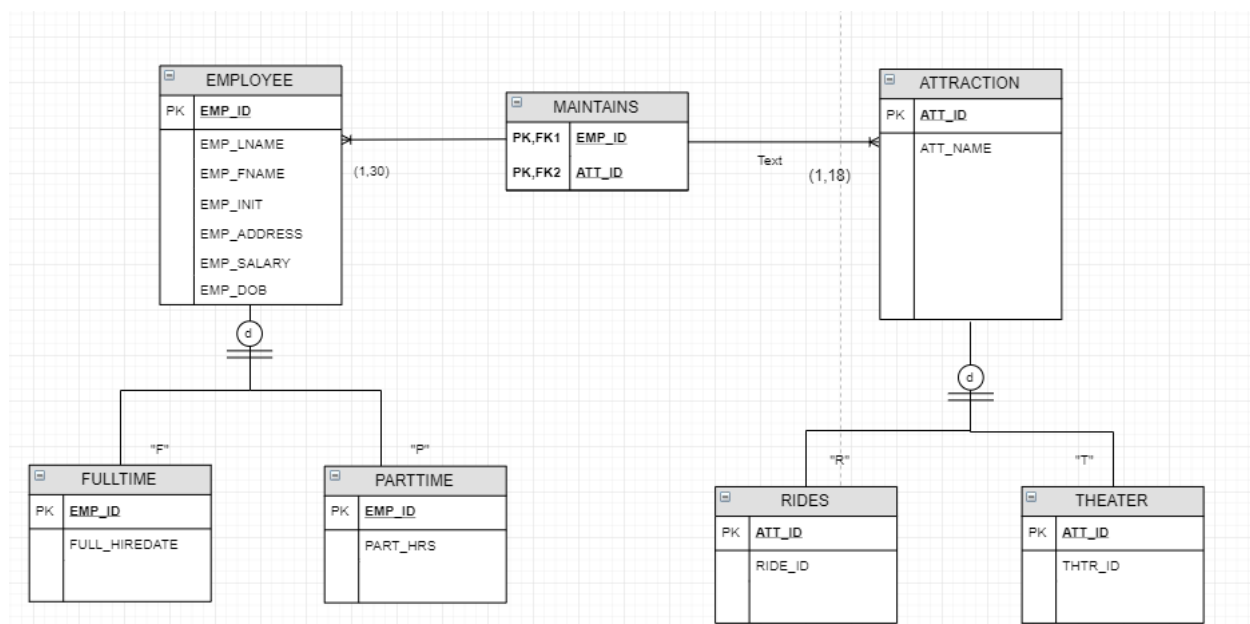

7. An EMPLOYEE inspects one or many TICKET; one or many
TICKET is inspected by an EMPLOYEE.

8. One or many EMPLOYEE manages one ATTRACTION; one ATTRACTION is managed by one or many EMPLOYEE.

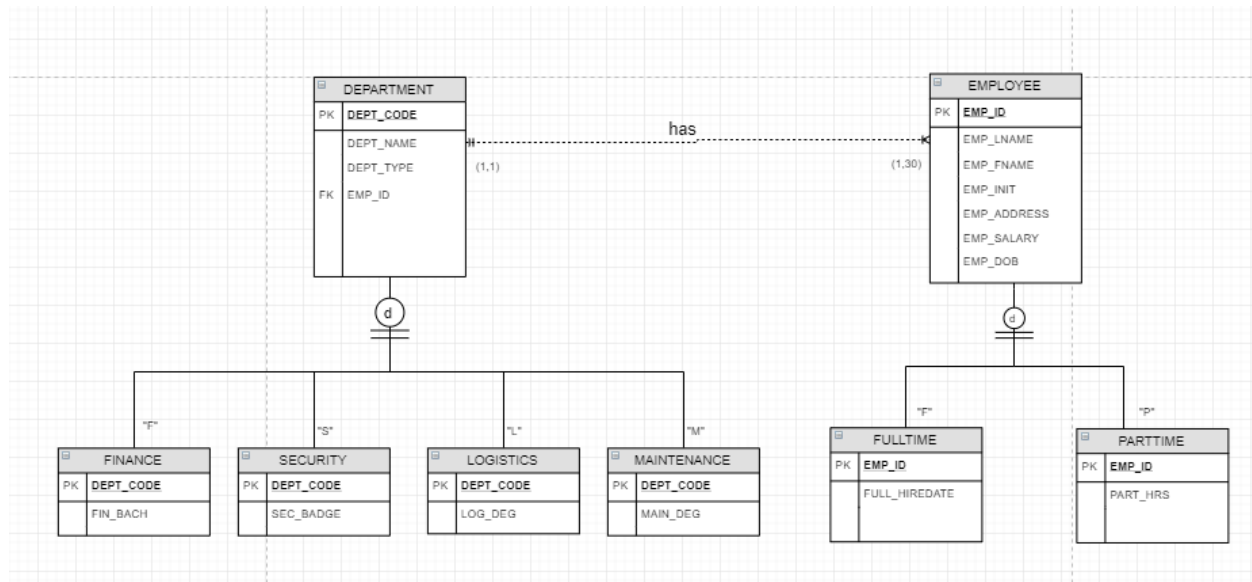

9. One or many EMPLOYEE maintains one or many ATTRACTION; one or many ATTRACTION is maintained by one or many EMPLOYEE.

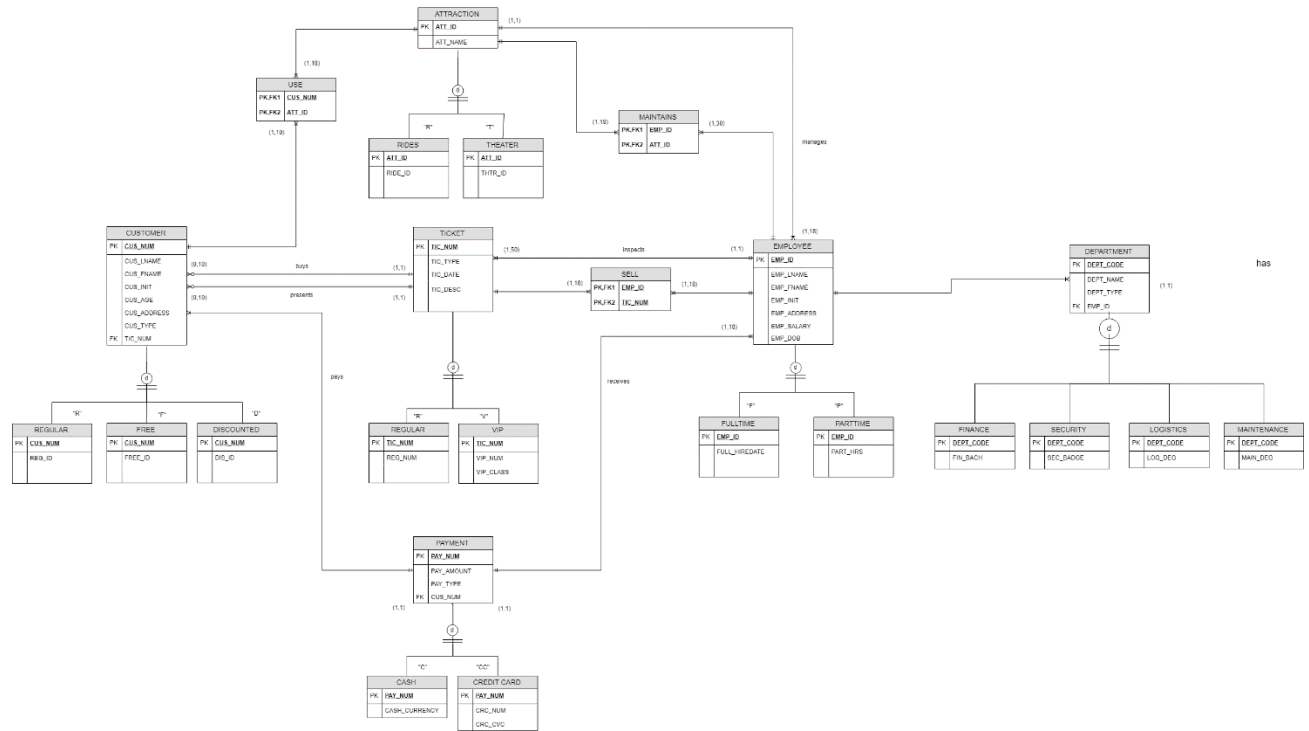

or many EMPLOYEE.

10. One DEPARTMENT has many EMPLOYEE; many EMPLOYEE has one DEPARTMENT.

CONCEPTUAL FRAMEWORK

CHAPTER 3

Data Dictionary

Table Name	Attribute Name	Contents	Type	Format	Range	Required	PK or FK	FK REFERENCE TABLE
